

Hi there! My name is Kathleen and I'm 16. I live in Arklow, Ireland, this is one hour south of Dublin. I am so excited about doing this project! I can't wait to meet you all!

This is my school.

I go to St. Mary's College and I am in Transition Year. This is the fourth year of secondary school and it is optional. I love TY! Without it I would not have all my new friends and I would actually have to do some study :/. There are 600 girls in my school and besides the 5 male teachers there are no boys.

My Mam works in a pre-school and my Dad is a pastor of our local church, Bridge Christian Community. I have one brother who is 17, his name is Jonny. He loves music and theatre and he is auditioning for Theatre College in England this year. I really hope he gets in!

I love to dance! I do ballet, tap, hip hop and modern theatre dance and these take up 9 hours of my week. I also help out in my drama school with the little children, teaching them dancing. I am in at least two shows this year and hopefully some more as well.

I cannot survive without my two favorite things! These are music and chocolate 😊 I am constantly listening to music! I love bands like All American Rejects, Mumford and Sons and Vampire Weekend but I also love old jazz and soul artists like Aretha Franklin. I also listen to acoustic folksy stuff like Newton Faulkner and Paulo Nutini. I play piano and guitar and I never stop singing, just ask the girls :P My favorite food is chocolate and I can not go a day with out it!

***This is me!***
