

## SUMMARY OF "LAND AND FREEDOM"

It is about a fight against Fascism in Spain., one of the fighters is from England. While he was a member of Great British Communist Party he decided to take part in the fight .He is ,David Carr. He joined the POUM for Left Wing. It is a real life story. We also see the fight between the similar sides. David's and his friends' idealism was tested. It is very interesting that all people want a good country but they fight instead working together. In our country we also saw the same fight so we remembered those days as far as we were told by our parents.

It is now good to see that Spain has her Democracy. With the film and what we have already know from our country, it is always a hardwork to gain Democracy for countries and we have to protect it.

Turkish students of the Project.
